

YOUR PARTNER FOR INDUSTRIAL SOLUTIONS

Comprehensive technological solutions in waste management. All in one place.

OUR SERVICES AND PRODUCTS

Waste Processing Sorting Lines

Turnkey projects including design, production, delivery, installation, and subsequent servicing

Conveyor Systems

Dozens of different types of conveyors and conveyor systems used across various industrial sectors

Handling Equipment

- various types and kinds of equipment
- supplied equipment is equipped with necessary automation and sensors

Sorting Technologies

Specialized single-purpose devices designed to perform specific customer-defined tasks and operations

Energy Solutions in Industry

- energy audits
- preparation of technical and economic solutions for building efficiency
- assessment of electricity and heat production and distribution systems

Green and Climate-Active Roofs

Solutions that open new possibilities for use in industrial halls as well as residential homes

Why Choose Us?

We provide complete support for project implementation—from initial design, through production and installation, to the servicing of delivered and installed machines, systems, and equipment.

Technological Solutions - Engineering Services - Custom Manufacturing - Servicing - Expert Consulting

Completed Projects

- ✓ Bratislava (2018)
Automated sorting line with optical sensors for sorting plastic municipal waste (PMW) and paper
- ✓ Žilina (2019)
Automated optical sorting line for PMW sorting and RDF (Refuse-Derived Fuel) production
- ✓ Trnava (2021)
Sorting and washing line for PET processing and flake production
- ✓ Sl. Ľupča (2022)
Automated line for metal separation
- ✓ Kočovce (2022)
Automated sorting center for processing deposit-return PET and aluminum packaging
- ✓ Brno (2023)
Automated sorting line for PMW and paper sorting
- ✓ Šulekovo (2023)
Expansion of the sorting line for PMW and paper sorting
- ✓ Nové Zámky(2024)
Automated line for sorting residual municipal waste (RMW), PMW, and paper
- ✓ Spišské Vlachy (2024)
Automated line for aluminum disc separation
- ✓ Benátky nad Jizerou (2025)
RDF production line, AVE CZ
